Bird®

Base Station Gateway

The Base Station Gateway (BGW) allows control and monitoring of the entire DAS remotely. It serves a web page, supports several VPN tunnels, as well as SNMP Trap alarming.

ELECTRICAL SPECIFICATIONS

Model Number	DWG301
Input voltage	100 - 240VAC, 60-50Hz, 4 Amp Max
Power Consumption	<100W typical

INTERFACE SPECIFICATIONS

Input connector	C14 Panel
Ethernet connectors	RJ45

MECHANICAL SPECIFICATIONS

Weight	6 kg
Operation temperature range	+10 to +30 ºC
Size W x H x D	19" x 1U x 14.2"
